חטטים, פפיליות ופוסטולות, או בקיצור פריחות, הם שינויים אופייניים הנפוצים בעור טהור ונקבובי גדול. אלו הן הפרעות עור קשות שכיחות ונפוצות לעיתים קרובות, המתחילות בגיל ההתבגרות ויכולות להמשיך לבגרות. עור מקורזל ועודף חלב הם מדיום בו חיידקים מסוימים מסוגלים לפרוח ועלולים להוביל לדלקת בעור.

ישנם שלושה מצבים שיכולים להוביל לעור פגום: אלה הנטייה לפתח היפרקרטוזיס זקיקי, ייצור יתר של חלב, והתיישבות חיידקית מוגזמת של פלורת העור. בשלושת המקרים, קוסמטיקה לטיפול בעור יכולה, וצריכה להיות בשימוש הגיוני.

מטרת סדרת טיפוח זו לעור שומני ופגום היא להחזיר מצב עור שומני ולח למצב תקין ולשלוט בהצטברות מקומית של פגמי עור. באופן זה ניתן לעצור את הנטייה לפתח אקנה לפני שהתחיל באמת!

עור שומני

- מכין את העור בצורה אופטימלית למוצרי טיפוח הבאים
- מונע דלקת, כתמים ושחורים
- נותן לעור הרגשה נקייה, רעננה ורכה
- השמן העודף של העור, הלמלות הקרניות וחלקיקי הלכלוך מוסרים בעדינות

Clarifying Cleansing Gel

MILD CLEANSING GEL

אנשים הסובלים מעור פגום סובלים לעיתים קרובות מאילוץ לשטוף את פניהם. לא פעם משתמשים בחומרי ניקוי אגרסיביים לשם כך. הקיצון הנוסף הוא משתמשים במי ברז רגילים. שני אופני ההתנהגות מקדמים אקנה: ייבוש עור אגרסיבי מחמיר עוד יותר את הקרניים, ולכן מוביל להתקשות של נקודות שחורות, בעוד שהסרה לא מספקת של עודפי השמן בעור מקדמת את מידת ההדבקה החיידקית על פני העור. זה בתורו מקדם את התרחשותם של התפרצויות פריחה.

לכן נדרשת רגישות מיוחדת על מנת להבטיח כי אנשים מושפעים רואים בניקוי קבוע ועדין טיפוח עור חיוני ויזימי.

גל ניקוי מבהיר הוא גל ניקוי עדין המאפשר ניקוי עדין אך עם זאת יסודי.

יישום לטיפול ביתי

הפץ בעדינות ג'ל ניקוי מבהיר על העור בפנים, בצוואר ובמחשוף בידיים לחות. שוטפים עם הרבה מים. לאחר מיכן ניתן לטפל עם קרם טיהור מטהר.

טיפ: ברגע שהעור נקי מדלקת, מברשת פנים מתאימה בצורה אופטימלית להפצת ג'ל הניקוי.

חומרים פעילים

- תמצית שמרים: מועשרת בויטמינים מקבוצת B ובאלנטואין, מווסתת חלב
- דקליל גלוקוזיד (טנזיד סוכר) : חומר כביסה פעיל גולמי על בסיס טבעי
- אלנטואין: תומך בהתחדשות הטבעית של העור

עור שומני

- ללא אלכוהול
- מכין את העור בצורה אופטימלית לטיפולים הבאים
- מונע דלקת ושחורים
- העור מתחדש ומרענן באופן מורגש
- ייצור יתר של חלב הוא מנורמל

☰ Purifying Tonic Lotion

SEBUM FLOW-REGULATING TONIC

ניקוי יסודי ועמוק נקבוביות מסתיים רק כאשר הכנת הניקוי ואחריה טוניק פנים. טוניק הפנים, המכונה בקצרה טוניק, הופך לפיכך לתוספת חיונית לניקוי יסודי ויסודי של סוג העור.

הן שאריות מי ברז לא רצויות וכל שאריות מוצר ניקוי מוסרות מהעור. עם הפונקציה המרעננת והמחיייה שלו, הטוניק מחזיר את שיווי המשקל של העור, ומשפר את ההשפעה של תכשירי הטיפול הבאים ורווחתו האישית של העור.

ידידותי לעור במיוחד לכל pH קרם טוניק מטהר הוא טוניק פנים קליל ונטול אלכוהול עם ערך פרופילי העור השומניים והפגומים אשר להם נטייה לפתח אקנה

יישום לטיפול ביתי

יוצקים קרם טוניק מטהר על כרית צמר גפן ומלטפים בעדינות על הפנים והצוואר. מורחים בכל פעם לאחר הניקוי בעזרת ג'ל ניקוי מבהיר.

חומרים פעילים

- תמצית שמרים: מועשרת בויטמינים מקבוצת B ובאלנטואין, מווסתת חלב

Clarifying Cream Gel

SEBUM FLOW-REGULATING CREAM GEL

Due to a seborrheic (oily-moist) skin condition, the sebum follicles are widened. The observer is confronted with the image of skin with enlarged pores, combined with a disturbing oily sheen and frequently accompanied by blackheads. If nodules and/or inflammation are present, these are generally referred to as papules and pustules. Not infrequently, the skin appears whitish-pale and is nevertheless relatively intransparent, as it is rather thick.

The skin's exterior appearance often leads to mental suffering for the afflicted persons. Within the field of care cosmetics, it is therefore desirable to prevent these characteristics of blemished skin, i.e. skin which is susceptible to acne, or to ensure that the symptoms abate as rapidly as possible. The natural equilibrium of the skin's function and its healthy bacterial flora should be restored in this case.

Clarifying Cream Gel is 24-hour care which is low in lipids and meets the above care requirements. The light texture refreshes in the manner of a hydro gel and simultaneously offers the care of a light cream.

When used daily, Clarifying Cream Gel effectively combats the causes of blemishes.

Home care application

Apply Clarifying Cream Gel onto cleansed skin in the morning and/or evening and massage in gently. Also suitable as a foundation for make-up.

ACTIVE SUBSTANCES

- **Butyl avocadate:** Distillate from the avocado fruit, anti-sebum active substance
- **Aloe vera extract:** Soothing, skin-clarifying, moisturizing
- **Red algae extract (Condrus crispus):** Moisturizing
- **Fine polyamide powder:** Porous, round spheres, microfine, absorb surplus sebum and leave the surface of the skin looking matte

Test result

- Tested under specialist, dermatological supervision by the Dermatest® Institute
- Overall result: Very good
- Following 4 weeks of application, sebumentry determination using a sebumenter shows that the skin's lipid content is statistically reduced by 18.2%

JANSSEN COSMETICS

OILY SKIN

- **Activates natural skin rejuvenation**
- **Refines the pore structure**
- **Provides moisture**
- **Helps to fight against existing spots and skin blemishes**
- **Light texture**
- **Quickly absorbed**
- **Pleasant fresh scent**
- **Also suitable for more mature skin**

☰ AHA Face Cream

REJUVENATING CREAM GEL WITH FRUIT ACIDS

AHA Face Cream is a pleasant, light 24-hour care product for greasy skin prone to blemishes. The round-the-clock facial care product loosens dead skin cells and activates natural skin renewal. Blocked pores, a common cause of blackheads and inflammation, are opened again. At the same time, the skin is thoroughly moistened and appears fresher and smoother – an effect that is also desirable for more mature skin prone to blemishes.

AHA Face Cream contains a fruit acid combination of glycolic acid, malic acid, tartaric acid and citric acid. Fruit acids act as a peeling by inhibiting the cohesion of the corneocytes and also support the skin's natural renewal processes. Superfluous skin cells disappear and new cells can reach the surface unhindered. When used regularly, the appearance of the skin can be significantly improved. Pores appear refined, and the skin is smoother and more delicate.

A decisive factor in the effectiveness of the fruit acids is their relatively low pH-value. AHA Face Cream has a pH-value of about 4.4 at a fruit acid concentration of 10% - it therefore has an optimum effect while still being gentle to the skin.

Home care application

Apply AHA Face Cream onto cleansed skin and massage it in lightly, preferably in the evening. Also suitable as a foundation under make-up.

Tip: Ideal in combination with *Microsilver Serum*. We then recommend using the products as follows:

1. *Microsilver Serum*
2. *AHA Face Cream*

Note: During the day, be careful when exposing skin to UV-sunlight – please use *Face Guard Advanced*.

ACTIVE SUBSTANCES

- **Glycolic acid:** occurs naturally in, inter alia, unripe grapes, sugar-cane juice and sugar-beets. Has a keratolytic effect
- **Malic acid:** can be found in unripe apples, gooseberries and other fruits – in a higher concentration, this also has a slightly keratolytic effect
- **Tartaric acid:** tartaric acid and its salts are found in abundance in the vines, grapes, and leaves of the grapevine; has a slightly keratolytic effect
- **Citric acid:** is found in lemons, but also in many other fruits; has a keratolytic effect and also lightens the skin in higher concentrations
- **Saccharide isomerates:** moisture-retaining substance based on natural sugars; it binds naturally to the skin's keratin and is seen as a "moisture magnet"

- Effectively helps fight against existing spots and blemishes
- Calms irritated skin
- Refines the pores
- Provides moisture
- Helps to prevent new skin blemishes
- Optimum balance between effectiveness and gentleness to the skin
- Without perfumes
- Self-preserving due to the micro-silver content

Microsilver Serum

SERUM WITH AN ANTI-BACTERIAL EFFECT

Microsilver Serum is effective and long-lasting for the relief of spots, skin blemishes and stress-induced irritation.

The highly-effective formula, with 0.2% micro-silver and 3.5% glycolic acid, brings lasting improvement to the skin's appearance and achieves an optimum balance between effectiveness and gentleness to the skin.

Micro-silver has been shown to remove germs and micro-organisms on the skin's surface. The high-purity, high-porosity silver which is produced by a complex mechanical process, has an average particle size of 10 micrometres. Thanks to this special surface, micro-silver leaves a film on the skin which can supply anti-bacterial silver ions at any time. The lasting restoration of your skin to a clear, smooth appearance is supported and accelerated. Due to its size, micro-silver does not penetrate into the deeper skin layers.

Glycolic acid reduces excessive hornification. Existing blackheads are reduced faster and, the formation of new blackheads is prevented.

The result: Microsilver Serum improves the appearance of the skin when used regularly. Clinical studies evaluating the efficacy of micro-silver showed that a significant reduction in papules and pustules could be achieved with a dose concentration of 0.2% after just 12 weeks of use.

Home care application

Apply Microsilver Serum onto cleansed skin and massage it in lightly. Avoid the zone around your eyes.

Tip: Ideal in combination with AHA Face Cream or Clarifying Cream Gel. We recommend using the products as follows:

1. Microsilver Serum
2. Mornings: Clarifying Cream Gel.
Evenings: AHA Face Cream.

ACTIVE SUBSTANCES

- **Microsilver:** pure natural silver, removes germs and micro-organisms on the skin's surface, stabilises the skin flora and has a soothing effect on the skin. Microsilver acts only on the skin's surface and does not penetrate into the deeper skin layers (no nano-particles)
- **Glycolic acid:** breaks down hornification and refines the skin's pores
- **Glycerine:** provides moisture
- **Allantoin:** supports the natural regeneration of the skin
- **D-Panthenol:** Pro-vitamin B5 (panthenol), stimulates cell regeneration and improves wound healing, promotes intact skin and increases the skin's moisture level

JANSSEN COSMETICS

OILY SKIN

- **Skin blemishes are specifically combated and prevented**
- **Dissolves dead skin cells**
- **Loosens stubborn blackheads until these are completely removed**
- **Antibacterial and anti-inflammatory**
- **Moisturizing**

Normalizing Skin Complex

ACTIVE SUBSTANCE CONCENTRATE FOR LOCAL APPLICATION

Stubborn blackheads, papules and pustules require special attention.

Firstly, the beautician providing treatment will professionally remove the corresponding blemishes following careful preparation with a peeling and steam bath, and secondly, the customer ensures that the blemishes abate gently by means of specific home care. The skin must be prevented from drying out under all circumstances. The natural equilibrium of the bacterial flora additionally has to be restored and skin renewal must be supported. Only in this manner can inflamed skin be relieved and further blemishes prevented.

Normalizing Skin Complex is a highly-dosed concentrate. It contains the innovative anti-sebum active substance with oleanolic acid, etc. Following application twice per day over a period of 6 weeks, clinical studies reveal an improvement in oily and blemished skin: sebum production decreases, and the number of blackheads and pustules is reduced, thereby lessening the tendency for inflammation to develop.

In combination with the corresponding care cream, problematic skin experiences rapid relief.

ACTIVE SUBSTANCES

- **Anti-sebum active substance complex:** Contains an extract from olive leaves (oleanolic acid), reduces excessive sebum production, has a keratolytic and bactericidal effect
- **Salicylic acid:** Opens the pores, removes dead skin cells on the surface, softens blackheads (keratolytic)
- **Aloe vera extract:** Soothing, skin-clarifying, moisturizing
- **Red algae extract (Condrus crispus):** Moisturizing

Home care application

Apply locally, i.e. directly onto oily areas of skin and existing or emerging skin blemishes as required, massage in gently and allow to work in for a few minutes. Then use Clarifying Cream Gel for further care.

Tip: Ideal for post-extraction treatment in the cubicle.

Test result

- Tested under specialist, dermatological supervision by the Dermatest® Institute
- Overall result: Very good
- Following 4 weeks of application, sebumetry determination using a sebumeter shows that the skin's lipid content is statistically reduced by 18.2%

JANSSEN COSMETICS

OILY SKIN

- **Refines pores**
- **Anti-inflammatory**
- **Promotes a clear and silky-matte skin profile**
- **Reduces and normalizes sebum gland activity**
- **Excessive sebum is absorbed**
- **Combats and acts to prevent blemishes**

☰ Purifying Mask

SPECIAL DEEP CLEANSING MASK

Supplementary and particularly gentle cleansing of oily skin is carried out with Purifying Mask, a sebum-absorbing care mask.

Designed on the basis of healing earth, this mask is able to absorb the skin's surplus lipids in an extraordinarily gentle manner. The simultaneous release of innovative active substances soothes and effectively combats skin blemishes without drying out the skin. A clear and matte complexion soon becomes visible.

Each time it is applied, Purifying Mask thrills customers with its light, non-oily and creamy texture. It is used to care for all skin conditions involving increased sebum production.

Note: Clay is also known as healing earth. This refers to a powder which is obtained from loess deposits from the Ice Age (clay earth), see LUVOS healing earth.

ACTIVE SUBSTANCES

- **Anti-sebum active substance complex:** Contains an extract from olive leaves (oleonic acid), reduces excessive sebum production, has a keratolytic and bactericidal effect
- **Aloe vera extract:** Soothing, skin-clarifying, moisturizing
- **Healing earth:** White china clay; sebum-absorbing effect
- **Fomes officinalis:** Larch agaric (tree fungus) extract, contains polysaccharides and minerals; natural astringent acts to perceptibly lift and refine the skin profile by reducing the size of pores

Home care application

Apply Purifying Mask onto cleansed skin. Leave out the eye area. Allow to work in for up to 20 minutes. Remove with warm, moist compresses. Apply approx. 1-2 x weekly; if necessary, also more frequently locally on inflammation.

Tip: The mask naturally dries on. It can be removed more easily if it is first released gently with moist fingertips. Also ideal for local T-zone treatment for combination skin.

Test result

- Tested under specialist, dermatological supervision by the Dermatest® Institute
- Overall result: Very good
- Following 4 weeks of application, sebumetry determination using a sebumeter shows that the skin's lipid content is statistically reduced by 18.2%
